Harder Edges

A proprietary process exclusive to Ultima, it produces harder edges extending the life of your blades significantly over the blades of our competitors. E-X-T is available on all Advanced Series blades.

Carres Ultra Rigide

Un procédé unique et exclusif aux lames Ultima, qui résulte en une lame plus dure augmentant de façon significative sa durée de vie. Le procédé E-X-T, est disponible sur toutes nos lames avancées.

7000 Aircraft Aluminum Chassis

is extremely strong and super lightweight, reducing fatigue.

Le châssis d'aluminium '7000 Aircraft' est extrêmement rigide et très léger. Il est une source importante d'économie d'énergie pour le patineur.

AUS8 Stainless Steel Runner (57-58 HRC)

has maximum strength with longer edge life.

La lame d'acier inoxydable 'AUS8' a une dureté maximale pour des carres plus durable.

Permanently Secure
Sécurisée de façon permanente

Parallel Chassis for Accurate Sharpening
Châssis à cotés parallèles

33% LIGHTER!
