

Jackson Elite Series Boots

Jackson Support Rating System

To assist skaters in selecting the boot or skate most appropriate for their requirements.

Layered Cork Leather Sole

Increases shock absorption and decreases sole weight, up to 17% lighter than traditional leather soles.

Elite Footbed

Jackson exclusive, ergonomically designed 5 layer impact absorption system. Offers superior shock dispersion, comfort, support and alignment

Heat Moldable System

Another innovation pioneered by Jackson, which allows dealers and technicians to mold boots to individual skater's needs.

Jackson Support Rating System

Pour faciliter la sélection de l'équipement le plus approprié à chacun des niveaux du patinage artistique.

Semelle Cuir-liège

Facilite l'absorption des impacts. Réduit le poids de la semelle de 17% en comparaison des semelles traditionnelles de cuir.

Fausse Semelle Préformée

Fausse semelle ergonomique exclusive à Jackson avec système d'absorption d'impacts à 5 niveaux. Elle offre une répartition supérieure des impacts, un confort et une stabilité accrue.

Heat Moldable System

Une autre innovation de Jackson qui permet au spécialiste de mouler la botte aux besoins spécifiques de chaque athlète.

JACKSON ELITE SUPREME

Unique Instep Wrap

Provides increased stability and foot lock.

Rolled Topline Finish

Unique rolled over padded topline offers increased comfort and reduces leg irritation.

Système Wrap

Qui améliore la stabilité et réduit les mouvements internes.
